Proposed Revisions to Undergraduate Bachelor of Science in International Studies Degree

Marcus J. Kurtz
Undergraduate International Studies Program
June 12, 2024
Version for Re-submission

Proposed Revision to the Undergraduate Bachelor of Science Degree in International Studies

1 General Information

Name of revised major: Bachelor of International Studies (unchanged)
Degree to be received: Bachelor of Science
Proposed Implementation date: August 15, 2025
Academic Units: Undergraduate International Studies Program / Social and Behavioral
Sciences / ASC

2 Rationale

The curriculum underlying the Bachelor of Science degree in International Studies has not undergone a foundational review in many, many years.¹ Instead, the program has evolved over the years through a process of accretion, wherein new “tracks” have been added as options for students to pursue, reflecting changes in the broader academic world, our society, and the needs of potential employers. While this has in many ways led to a diverse, interdisciplinary experience for our graduates, it has also come at some cost in terms of intellectual coherence, consistency, and the ability to highlight relevant skills for potential post-baccalaureate employers. At the same time, some of the core classes for several of the tracks are no longer offered, and alternatives have had to be approved on an ad-hoc fashion. This revision is geared toward creating a coherent, up-to-date, undergraduate BS degree in International Studies. It will completely redo the course options for each track (to reflect the current offerings of the more than 20 departments that contribute classes to the IS major) and embed a shared social scientific/methodological emphasis in the major itself.

¹ As it is currently structured, the Bachelor of Science degree in International Studies has three pre-major requirements: three semesters of foreign language (or a minor or major in a foreign language), and two pre-major courses (which vary by the track in question). International Studies majors select a track that guides the structure of their major program. The options are: (1) African Studies, (2) Development Studies, (3) East Asian Studies, (4) Globalization, (5) International Relations and Diplomacy, (6) Latin American Studies, (7) Middle East Studies, (8) Security and Intelligence, (9) Slavic and East European Studies, (10) West European Studies, and (11) World Economy and Business. Following this, 12 credit hours of required “foundations” courses must be completed in the major, a fourth language class, 12 credit hours of “critical perspectives” classes selected from set of relevant offerings, followed by 3 more “elective” credit hours from a more expansive set of selections.

Prior to Autumn 2025, the distinction between the Bachelor of Science and Bachelor of Arts degrees in International Studies hinged not mainly on the content of the major, but rather because the former required a (typically external) ‘science minor.’ Since minor degrees do not have BS and BA versions, of course, the definition of such a minor was structured to include only minor degrees for which a major degree equivalent did not have a Bachelor of Arts version. While seemingly sensible, this structure led to a rather baroque set of options to fulfill this ‘science minor’ component. For most of the typical science majors (e.g., Chemistry, Physics, etc.) all had both BS and BA versions, and thus minors in such fields could not count toward the fulfillment of this requirement. Instead, *only* the following minors were options: Agribusiness, Business, City and Regional Planning, Environmental Science, Geographic Information Science, Global Public Health, Information Security, International Business, and Quantitative Economics. This, of course, had two principal drawbacks, both criticized in the 2019 external review. First, perfectly reasonable science-oriented minors (again, Chemistry, Physics, Biology, etc.) were precluded from utilization as the ‘science minor’ for the BS in International Studies. Second, it essentially outsourced all the scientific content of the BS degree to other units, with no standardization among them (i.e., each qualifying minor had vastly different requirements).

Responding to these concerns, our curricular revisions will instead *embed* the scientific content directly within the BS degree program for International Studies. This takes the form of a requirement for the completion of 9 credit hours of social scientific methodology (3 courses from one of the sequences outlined below). In turn, the requirement for a so-called ‘science minor’ will be removed. While this will slightly increase the number of credits required for the major, it will reduce the external requirements by substantially more (the external minors require between 12 and 18 credit hours, depending on the selection).

As was the case with a recent revision to the undergraduate Bachelor of Arts degree, our decennial external review in 2019 (and the action plan approved March 2021) highlighted the need for a shared core curriculum across all tracks of the Bachelor of Science degree. The reviewers also noted that each BS degree track had complex and distinct requirements, often with little logical distinction between “foundations,” “critical perspectives,” and “electives” components (see fn. 1). The action plan envisioned a three-pronged strategy for addressing these concerns:

- All major tracks will now have a shared core curriculum. They include a uniform onboarding course (INTSTDS 3850), and a capstone writing course (INTSTDS 4852).
- In addition, all BS major tracks will be required to demonstrate methodological competency by completing one of the following sequences of methods courses:
 1. STAT 2450.xx; STAT 3301; STAT 3302
 2. POLSCI 3780(H) or ECON/INTSTDS 3400; POLSCI 4781; POLSCI 4782
 3. GEOG 4103; GEOG 5103; GEOG 5210
- Students will be permitted to select substantive courses in their track (specialization) from a curated list, revised annually, appropriate to each specialization. These will be the

same substantive options available as for the recently approved Bachelor of Arts curriculum.² Students will complete 18 credit hours in this substantive specialization.

- The number of specializations available will be expanded to fourteen, by including as options the three specializations previously available only as minors. These additional specializations were also approved for the new Bachelor of Arts curriculum.³

A further rationale for this overall programmatic structure is to better insert the UISP into the broader university. The teaching side of the UISP historically has spanned the spectrum from area-studies classes to research methodology, to various specialty courses (e.g., cyber-security, intelligence), to peace studies and international relations. Some of these duplicate (to differing degrees) offerings available elsewhere in the university in its myriad departments in the Arts and Humanities; Social and Behavioral Sciences; and Food, Agricultural, and Environmental Sciences. With our curricular restructuring, the UISP will focus its teaching resources on two areas—the core introductory and capstone classes, and specialty classes not offered elsewhere in the university. We expect that most credits used to complete the requirements will be taken in the form of regular departmental courses in the colleges identified above. This will allow the UISP to emphasize its essential interdisciplinary focus while at the same time utilizing the myriad disciplinary resources to be found on our campus. It is our hope that this will generate a positive-sum relationship among departments and the UISP, rather than the sometimes-competitive environment of the past.

3 Description of Proposed Curriculum

The revised major in International Studies thus has at its core a set of shared courses (amounting to 6 credits) that will be taken by all majors. These two classes are required components of the Bachelor of Arts in International Studies Degree as well. In addition to this, the BS degree has a substantial methodological requirement, requiring the completion of one of three alternative 3-course sequences (9 credits) offered in either the Statistics, Political Science, or Geography departments. Students must also choose a track within International Studies, and complete 18 credit hours of coursework from among the options available for that track.

There is a language requirement that is external to the major. This requirement requires

² The available concentrations will thus be: (1) African Studies, (2) Development Studies, (3) East Asian Studies, (4) Globalization, (5) Human Rights, (6) Information Security, (7) International Conflict & Peace Studies, (8) International Relations and Diplomacy, (9) Latin American Studies, (10) Middle East Studies, (11) Security and Intelligence, (12) Slavic and East European Studies, (13) West European Studies, and (14) World Economy and Business.

³ As is the case for existing minors that parallel tracks in the major, no student may pursue a minor in a concentration that is being used to fulfill the substantive concentration in the major track.

either the equivalent of four semesters of a world language instruction (via coursework and/or placement testing), or the completion of a minor degree in a language, or a second major in a language. The specific language that is selected is expected to be relevant to the students' course of study but is otherwise unrestricted.

In schematic form, the revised major would follow the pattern below.

Figure 1. Potential Structure of a Revised International Studies Bachelor of Science degree

Language Requirement: 4 semesters *or* language minor *or* language major

I. Core Requirements (6 credits, required of all IS BS tracks)

Globalization (INTSTDS 3850)
Capstone writing course (INTSTDS 4852)

Embedded Literacies: The advanced writing embedded literacy will be fulfilled by INTSTDS 4852. The data analysis embedded literacy will be fulfilled by completion of one of the three-course Methodology – Data Analysis sequences. The technology embedded literacy will be fulfilled by taking any one of the follow courses: (1) INTSTDS 3703 (“Ethical Issues in the Information Age”), (2) SOCIOL 3302 (“Technology and Society”), (3) COMM 3554 (“Social Implications of Communication Technology”), or (4) INTSTDS 4701 (“The Development and Control of Weapons of Mass Destruction”).

II. Methodology – Data Analysis (9 credits, required of all IS BS tracks)

Complete any one of the following sequences of courses: (9 hours)

- STAT 2450.xx; STAT 3301; STAT 3302
- POLSCI 3780(H) or ECON/INTSTDS 3400; POLSCI 4781; POLSCI 4782
- GEOG 4103; GEOG 5103; GEOG 5210

III. Substantive Concentration (18 credit hours)

Select 18 credit hours of courses from a list curated to be appropriate for each track. The tracks and substantive courses associated with them are the same as in the BA degree.

Students must complete 18 credit hours from among the courses included in the options for their substantive concentration: (1) African Studies, (2) Development Studies, (3) East Asian Studies, (4) Globalization, (5) Human Rights, (6) Information Security, (7) International Conflict & Peace Studies, (8) International Relations and Diplomacy, (9) Latin American Studies, (10) Middle East Studies, (11) Security and Intelligence, (12) Slavic and East European Studies, (13) West European Studies, and (14) World Economy

and Business.

The International Studies program has developed the list of courses that count in each concentration from among the offerings of appropriate university departments. This determination has been made in consultation with the many relevant departments to ensure that all appropriate classes are included, they are taught regularly, and are open to students outside the department in question. The current list is appended to this document, but it is expected to be updated in an ongoing fashion to reflect new offerings, or to remove courses that are no longer available.

Total Credit Requirement: 33 credit hours.[†]

[†]This is three credits more than the current requirement for the part of the B.S. degree provided directly by International Studies. But as the existing major has an additional requirement of a minor in one of a few specific science-related fields that will be removed in the new set of requirements, the overall credit-hours required for completing an IS Bachelor of Science degree is slightly reduced. Under the prior system, counting the required external minor, students would have to complete between 42 and 48 total credit hours to complete the BS degree.

4 Goals/Objectives and Evaluation of the Program

As this is a restructure of the major, as opposed to being a new program proposal, the four existing major expected learning outcomes (ELOs) from current assessment reports are being largely retained.

Major ELOs two, three and four are unchanged.

1. Students are able to perform basic data analysis and hypothesis testing.
2. Students show an ability to analyze and draw conclusions about international events and developments employing multiple analytical perspectives.
3. Students show an understanding of the diversity of cultures, ideas, and practices across the world.
4. Students are prepared for entry into diverse types of employment and/or graduate-level educational programs.

Major ELO number one is currently “Students are able to specify a regression model.” Given students are now entering a three-course sequence, this major ELO is being modified to take into account the much-expanded data analysis and hypothesis testing that is being required.

UNIT ASSESSMENT

The first major ELO will be evaluated by the gathering of syllabi from each of the 3 three-course Methods sequences. It will be confirmed multiple methods of data analysis are being taught and

hypothesis testing, and regression analysis will be performed. Completion of the three-course sequences will be used to fulfill the Embedded Literacy Data Analysis requirement.

The capstone class for all 14 major specializations in this proposal is International Studies 4852, *Research in Globalization*. All students will be required to take this class. The class will be assessed for major ELOs two and three above and for the Embedded Literacy Advanced Writing Requirement.

In the 4852 class, the theories and issues introduced in the International Studies 3850 *Introduction to Globalization* class will provide the foundation for the theories and issues presented in the 4852 class. Thus, a foundational set of research topics will be at hand for the students. Additionally, many students will have found topics of interest from other classes they have taken for their major. Deeper exploration of such topics will be encouraged in the 4852 class. In total, there will be flexibility in the choice of research topics based upon student interest.

All students in the class will write a 12–15-page research paper evaluated using a Rubric Direct Assessment methodology. Building up to the research paper there will be short papers discussing the issue being explored, theoretical perspectives relevant to the issue in question, a preliminary review of the literature discussing the issue, and the student's point of view and thoughts on the issue. Data and evidence must be presented in the research paper in support of the student's position on the issue. Also, data and evidence not in support of the student's point of view must be presented and considered. The careful consideration of opposing points of view and interpretation of data and events is central to preparation for careers in both the public and private sectors. This class will provide such an experience for the student.

OTHER ASSESSMENT ACTIVITIES

In addition to the above-discussed unit assessment, International Studies also employs both Direct and Indirect assessment measures in its annual reports. Typically, two classes are evaluated with direct methods each year, to be discussed below. Both direct and indirect data is gathered from a department-administered Graduating Student Exit Survey and the College of Arts and Sciences Graduation Survey Report (where an INTSTDS BS Additional Questions section is included).

In the cases of direct assessment of classes, the method used varies by class and instructor inclination. We will employ direct assessment across a (rotating) set of courses that will regularly include those that fulfill embedded literacy requirements. Examples of assessment undertakings from the last three academic years include:

International Studies 5701, *Intelligence and National Security in a Changing World*. This class was evaluated using a rubric methodology where students write a mock "President's Daily Brief" under the strictures of appropriate format, logical analysis (and counter-analysis), rules of evidence and writing mechanicals. This exercise relates directly to major ELO 2. In as much as the behaviors and reactions of foreign leaders must be considered, major ELO 3 is also involved. The Achievement Minimal Criteria was 60% of students earning a grade of at least a B on the assignment (90% achievement was recorded) (2020-2021 Assessment Report).

International Studies 3701, *Introduction to Homeland Security*. A direct method of Certification or Licensure Examination was applied. As part of the class, four Federal Emergency Management Administration (FEMA) Incident Command certificate courses were assigned. These certifications aid students seeking employment in the Department of Homeland Security (nationally or state-based) by validating understanding of nomenclature, structure, mission and processes of the agency. This exercise was most strongly related to major ELO 4. Minimum Achievement desired was 70% of students earning these certifications (100% was achieved) (2019-2020 Assessment Report).

International Studies 3701, *Introduction to Homeland Security*. In this case a pre-test/post-test direct assessment method was utilized. Five questions were administered. The class average for the pre-test was 37.27% and post-test was 77.27%. This exercise directly addressed major ELO 2. (2022-2023 Assessment Report).

It is the plan of the unit to continue to have classes assessed using direct assessment methods every year, with an emphasis of assessing at least one Required Foundations or Embedded Literacy class per year.

In the category of indirect assessment, much data is gathered from surveys of graduating students. Several examples of this ongoing process will be presented.

Major ELO 2 is evaluated yearly in the Arts and Sciences Graduation Survey where the three following questions are asked of the students and their responses tabulated on a 5 Point Likert scale.

The questions are: “To what extent has your major improved your ability to...

1. analyze and interpret the various kinds of data that inform debates in International Studies?”
2. engage objectively and critically debates about world problems and their solution?”
3. analyze and evaluate diverse, sometimes contradictory explanations and interpretations of international events and developments?

The Likert scale is of standard construction with a score of 1 being “Not at all” and 5 being “A great extent.” A minimum achievement criterion of 66.6% answering 4 or 5 is sought. In the 2022-2023 ASC report the respective scores were: 1. 100%; 2. 100%; 3. 100%.

Major ELO 3 is also probed in the Arts and Sciences Graduation Survey, again with the 5 Point Likert scale.

Those questions are: “To what extent has your major improved...

1. your understanding of concepts and theoretical frameworks that promote appreciation of foreign cultures, peoples, and the world in which they live?”

2. your knowledge, understanding and appreciation of other cultures and peoples, the region in which they live and the place of the region in the world?"

A minimum achievement criterion of 66.6% answering 4 or 5 is sought. In the 2022-2023 ASC report the respective scores were: 1. 84%; 2. 100%.

Also, in support of major ELO 3, data on student participation in education abroad experiences is gathered from the department exit survey.

To assess major ELO 4 data is garnered from a variety of sources. They include the department administered Exit Survey and the ASC Graduation Survey

An indirect measure in the ASC exit survey asks: "Overall, my major courses were effective in preparing me for employment or graduate studies." This is again measured on the 5 Point Likert scale (83% answering at the 4 or 5 level in the 2022-2023 survey).

More directly, the International Studies and ASC surveys seek such data by inquiring about participation in internships, jobs, or application to graduate schools. This data is regularly included in the unit's annual assessment report.

Under the restructuring of the major, it is the plan of the unit to continue with the above-mentioned assessment efforts.

USE OF ASSESSMENT RESULTS

Assessment results will be discussed with instructors on a systematic basis. Suggestions will be made to improve student class performance. The integration of the course with three retained major ELOs will also be discussed, and suggestions given to enhance that effort.

Where assessment data suggest that lacunae exist in accomplishing any of the major ELOs applicable to the course, these will be identified in writing for the instructors of record, and they will be asked to develop a plan to guide improvement in achieving the major ELOs. This will be submitted to the UISP director and subject to her or his approval. She/he may add additional strategies for achieving success in the achievement of major ELOs in consultation with the relevant instructor(s). Any course having been asked to undertake such a plan will be re-assessed at the next available opportunity to determine whether progress is being made. The time frame for re-assessment will depend on the frequency with which the course is offered.

5 Relationship to Other Programs

As an interdisciplinary major, International Studies has long had a tight relationship to other programs, especially departments in Arts and Sciences, Humanities, and to a lesser extent Food, Agricultural, and Environmental Sciences and Engineering. The recent external review noted the importance of this relationship, and one of the principal goals of

this curricular reform is to strengthen the ties between international studies and its partner departments.

The basic approach that is taken is to reshape the offerings of the International Studies program (in conjunction with the curricular reform) so that instead of teaching courses across the gamut of International Studies using instructors from within the program, we will instead focus our instructors in two areas: (1) core classes that provide the unifying scaffolding upon which the major is built, and (2) specialty classes that are necessary for some major and minor program tracks, but are not available elsewhere in the university.

By contrast, we expect most courses fulfilling the credit-hour requirements for the BS degree to be taught by regular OSU departments (see attached advising sheets). This includes the new core methodological requirements. Substantive courses are to be selected from curated lists of courses that are regularly taught across myriad departments that are applicable to each concentration. That is, we will provide a list of courses that can be taken for each concentration within International Studies but leave the selection of specific courses in specific departments up to the students. This allows them greater ability to tailor their study to their interests, within a broader shared understanding of International Studies that is provided by the core, methods, and capstone classes. To date, some 22 different departments contribute offerings to the various International Studies degree tracks.

We aim to be expansive in constructing the lists of specific courses that are applicable to each concentration, relying principally on data from the university registrar as to which courses are offered with sufficient regularity as well as the preferences of the departments themselves (not wanting to tax resources excessively where this is not desired). We will update these concentration lists annually in partnership with departments as potentially-applicable new courses enter service, while removing those that are no longer regularly offered. This will be an in-house administrative process as it does not affect the structure of the major and is simply an updating activity.

6 Detailed Curriculum Description and Sample Major

WORLD LANGUAGE

All students must complete two full years of training in a single world language. This is the existing requirement. Students also have the choice of completing a minor or a second major in a language as an alternative means to fulfill this requirement. Coursework completed at OSU, abroad, and/or appropriate placement test results can document this. Four semesters of a world language are a major co-requisite; however, they need not be completed before declaring the major or taking classes in the major.

DELETION OF “PREMAJOR” COURSES

In this proposal we no longer require the two non-world language pre-major courses (the status quo). The forward-looking logic behind this decision was threefold. First, there are no two courses that are clearly relevant as pre-requisites across the many different specializations within International Studies from which students will select. Second, consultation with the instructional staff suggested that the (non-language) pre-requisites contributed little to no value added to the content of the major or the progression of students through more advanced courses. Finally, it has been our experience that introductory level GE classes are sometimes a barrier to timely completion of the degree. Insofar as many students rush to fulfill them at the end of their course of studies, they provide no benefit in terms of the progress through the degree. And as availability of specific GE courses is limited, they can further serve as a barrier to timely graduation.

At the same time, the logic of the previous pre-requisite requirement was largely a by-product of the old structure of the major. The proposed major does not have the individual Required Foundations section of four classes for each specialization as seen in the existing major. In many cases, the pre-major classes were simply the prerequisites as defined by the offering units of required major classes. (i.e. PSYCH 1100 for PSYCH 4525 for the S&I specialization; POLITSC 1300 for POLITSC 4300 in the IRD specialization; ECON 2001.XX and 2002.XX for ECON/INTSTDS 4560 in the WEB specialization., etc.). They would have been *de facto* pre-requisites whether included in the curriculum structure or not. With the new organization, students will have much more flexibility in selecting courses for their specialization under this revision, and hence will have the option of not taking the courses that (for reasons pertaining to units outside UISP) had prerequisites.

The other cases of pre-major courses being deleted are the History courses that can be seen in many of the specializations. Given the number of courses in the major itself is being raised from ten to eleven, and in the spirit of the reduced number of courses required under the Autumn 2022 New General Education curriculum, the unit wishes to grant its students additional flexibility in the construction of their total undergraduate education by keeping required coursework outside of the major itself to a minimum.

REQUIRED FOUNDATIONS

International Studies majors must complete two required courses: 6 hours.

1. International Studies 3850 Introduction to Globalization (3)
2. International Studies 4852 Research in Globalization (3)

Typically, Introduction to Globalization will be taken early in a student's course of study, while the Capstone Writing Course (INTSTD 4852) will be taken toward the end.

METHODOLOGY – Data Analysis

Choose one three course sequence. 9 hours

1. Geography 4103 Introductory Spatial Data Analysis (3)

Geography 5103
Geography 5210

Intermediate Spatial Data Analysis (3)
Fundamentals of Geographic Information Systems (3)

- | | | |
|---------------------------|---|----|
| 2. Econ/IntStds 3400 | The Analysis and Display of Data (3) | OR |
| Political Science 3780(H) | Data Literacy & Data Visualization (3) | |
| Political Science 4781 | Data Analysis in Political Science I (3) | |
| Political Science 4782 | Data Analysis in Political Science II (3) | |
| | | |
| 3. Statistics 2450.xx | Introduction to Statistical Analysis (3) | |
| Statistics 3301 | Statistical Modeling for Discovery I (3) | |
| Statistics 3302 | Statistical Modeling for Discovery II (3) | |

SPECIALIZATION

International Studies is organized around thematic and regional specializations. Students must select specialization from among the options listed below. Six classes, 18 hours.

Please consult specialization descriptions for a complete listing of courses available.

Specialization Options:

- AFRICAN STUDIES
- DEVELOPMENT STUDIES
- EAST ASIAN STUDIES
- GLOBALIZATION
- HUMAN RIGHTS
- INFORMATION SECURITY
- INTERNATIONAL CONFLICT & PEACE STUDIES
- INTERNATIONAL RELATIONS & DIPLOMACY
- LATIN AMERICAN STUDIES
- MIDDLE EAST STUDIES
- SECURITY & INTELLIGENCE
- SLAVIC & EAST EUROPEAN STUDIES
- WEST EUROPEAN STUDIES
- WORLD ECONOMY & BUSINESS

GENERAL REQUIREMENTS

- Complete a minimum of 33 credit hours and 11 courses (not including co-requisites).
- Students must choose a Specialization.
- Up to two courses from the General Education Themes section can be shared with the major. These courses must be from the two different Themes. Exceptions can be made for double majors. See an advisor for details.
- Students must earn a C- or higher in all courses in their major and have a minimum 2.0 grade point average in the major.

REVISIONS TO THE EMBEDDED LITERACIES REQUIREMENT

Under this revision, the unit is seeking to update the classes that can be used to fulfill the Embedded Literacies requirement.

The currently approved Embedded Literacy classes are:

Advanced Writing:

INTSTDS 4700 Terror and Terrorism
INTSTDS 4852 Research in Globalization

Data Analysis:

STAT 2450.xx Introduction to Statistical Analysis

Technology:

INTSTDS 3703 Ethical Issues in the Information Age
INTSTDS 4701 The Development & Control of Weapons of Mass Destruction

The revised listing of Embedded Literacy classes under this proposal are (with discussions):

Advanced Writing:

INTSTDS 4852 Research in Globalization

Given this is a Required Foundations course for all students in all specializations, the need for a second option does not exist. It is retained from current usage.

Data Analysis:

Completion of one of the 3 three-course METHODOLOGY – Data Analysis sequences listed above.

Technology (recent semesters of offering listed for courses outside of INTSTDS):

COMM 3554 Social Implications of Communication Technology (SP23, AU23, SP23)
INTSTDS 3703 Ethical Issues in the Information Age (retained from current usage)
INTSTDS 4701 The Development & Control of Weapons of Mass Destruction (retained from current usage)
SOCIO 3302 Technology & Global Society (SP24, AU23, SP23)

All courses are already approved Embedded Literacy classes for their respective departments.

The recent semesters of offering for Data Analysis and Technology are listed to confirm the classes are being offered on a regular basis. As an interdisciplinary unit, International Studies

inquired other units as to their approved Embedded Literacy classes. Given our large number of specializations, and hence the varied interests of our students, we seek variety in the Embedded Literacy offerings available to our students.

It is worth noting that while the Embedded Literacies classes taught within UISP will regularly be assessed as to their efficacy, we cannot undertake such activity for the courses offered by other units. That said, in order to assure that sufficient course/seat availability is always present for students, we have made sure that EL courses of each type are offered directly by UISP, and have verified that EL courses offered by other departments will be (1) regularly available, and (2) open to UISP students.

EXAMPLE MAJOR

Specialization: International Relations & Diplomacy
Advanced Language: French

ADVANCED LANGUAGE: (Taken as a co-requisite, not in major)
FRENCH 2101.01 Introduction to French & Francophone Studies (3)

REQUIRED FOUNDATIONS: 6 hours.

INTSTDS 3850 Introduction to Globalization (3)
INTSTDS 4852 Research in Globalization (3) EL ADVANCED WRITING

METHODS & ANALYSIS: 9 hours EL DATA ANALYSIS

GEOG 4103 Introductory Spatial Data Analysis
GEOG 5103 Intermediate Spatial Data Analysis
GEOG 5210 Fundamentals of Geographic Information Systems

SPECIALIZATION (International Relations & Diplomacy) 18 hours

GEOG 3701 Making of the Modern World (3)
HISTORY 3501 U.S. Diplomacy, 1920 – Present (3)
INTSTDS 3703 Ethical Issues in the Information Age (3) EL TECHNOLOGY
INTSTDS 4700 Terror & Terrorism (3)
POLSCI 4330 Global Governance (3)
INTSTDS 2800 Introduction to Peace Studies (3)

7 Transition plan: students entering before Autumn 2025

Students admitted to the university before the Autumn 2025 semester will not be penalized as this new curriculum is implemented, either in terms of progress towards their degree or their expected date of graduation. Those admitted Summer 2022 and before will be responsible for major requirements that existed before the AU22 implementation of the GEN (New) and Embedded Literacy requirements.

Those admitted Autumn 2022 to Summer 2025 will be under the GEN and the Autumn 2022 major requirements that include the Embedded Literacy coursework. Those who enter the university Autumn 2025 and after will complete the eleven semester course requirements of the updated major being submitted under this proposal.

In the case of transfer students with much credit already earned, the evaluation of General Education classes and possible petition approval of being under the GEL (Legacy) General Education requirements will be considered. If the petition is approved for the student to be under the GEL General Education requirements, the student will be given the option to seek any of the three versions of the International Studies major in effect (that from SU22 and before, that from AU22 to SU24 with the Embedded Literacy requirements, and the approved new major that begins AU24).

APPENDIX A:
Current, Proposed Advising Sheets, and Curriculum Maps

AFRICAN STUDIES MAJOR (BS) – CURRENT

PREMAJOR requirements: Economics 2001.xx, History 2303, Stats 2450.xx

EMBEDDED LITERACIES (EL): (three courses): 9 hours

Students must complete at least one course each in **Advanced Writing, Data Analysis and Technology**. These courses are part of the major and courses which fulfill the requirements are indicated below. The Stats 2450.xx prerequisite satisfies the **EL Data Analysis**.

REQUIRED MINOR: Students must complete one of the following minors, or a second major in the same field: Agribusiness, Business, City and Regional Planning, Environmental Science, Geographic Information Science, Global Public Health, Information Security, International Business, Quantitative Economics.

REQUIRED FOUNDATIONS: (complete all four courses): 12 hours.

AAAS 4530	African Political Economy (3)
AEDECON or INTSTDS 4534	Comparative Challenges to Economic Development (3)
International Studies 2000	Introduction to Africa (3)
Political Science 4250	African Politics (3)

ADVANCED FOREIGN LANGUAGE: (complete one): 3-4 hours

Complete one of the advanced foreign language courses listed on the front of this brochure. Remember, you must complete 1103 of the same language first.

CRITICAL PERSPECTIVES (choose four): 12 hours (must include one EL Technology & one EL Advanced Writing)

AAAS 3310	Global Perspectives on the African Diaspora (3)
AAAS or INTSTDS 4515	Ethnicity, Development, and the State in Sub-Saharan Africa (3)
AAAS 4527	Pan-Africanism and Nationalism (3)
AAAS 4557	History of South Africa (3)
Anthropology 3418	Regional Survey of the Anthropology of Africa (3)
Comparative Studies 3674	African Religions (3)
International Studies 3703	Ethical Issues in the Information Age (EL Technology) (3)
International Studies 4700	Terror & Terrorism (EL Advanced Writing) (3)
International Studies 4701	The Development & Control of Weapons of Mass Destruction (EL Technology) (3)
International Studies 4852	Research in Globalization (EL Advanced Writing) (3)

ELECTIVES (choose one): 3 hours.

For the elective, students can choose from the list below, unused courses from the Critical Perspectives, or a course from other International Studies specializations.

AAAS 3376	Arts and Cultures of Africa and the Diaspora (3)
AAAS 4460	Theories in Africana Literature (3)
AAAS 4565	Topics in African Diaspora Studies (3)
History of Art 3101	Philosophy of African Art (3)
International Studies 4195	Selected Problems in International Studies (3-6)
International Studies 5191	Student Intern Program in International Studies (3 credits only)
WGSST 5623	African Women: History and Socioeconomic Change (3)

AFRICAN STUDIES Specialization (BS) - REVISED

PREREQUISITE:

All students must complete four semesters of training in a single world language. You do not need to complete them before taking classes in the major. You also have the option of completing a minor or a second major in a language. Coursework completed at OSU, abroad and/or appropriate placement test results can document this.

EMBEDDED LITERACIES (EL): (three courses): 9 hours

Students must complete at least one course each in **Advanced Writing (AW)**, **Technology (TECH)**, and complete a 3- course sequence in **Data Analysis (DA)**. These courses are part of the major and courses which fulfill the requirements are indicated below.

Course	Title	Credits	Grade
1. REQUIRED FOUNDATIONS: 6 hours			
International Studies 3850	Introduction to Globalization	3	
International Studies 4852	Research in Globalization (AW)	3	
2. DATA ANALYSIS: 9 hours (choose one three course sequence) (DA)			
1. Geography 4103	Introductory Spatial Data Analysis (3)		
2. Geography 5103	Intermediate Spatial Data Analysis (3)		
3. Geography 5210	Fundamentals of Geographic Information Systems (3)		
1. ECON / INTSTDS 3400 OR Political Science 3780(H)	The Analysis & Display of Data (3) Data Literacy & Data Visualization 3		
2. Political Science 4781	Data Analysis in Political Science I (3)		
3. Political Science 4782	Data Analysis in Political Science II (3)		
1. Statistics 2450.xx	Introduction to Statistical Analysis I (3)		
2. Statistics 3301	Statistical Modeling for Discovery I (3)		
3. Statistics 3302	Statistical Modeling for Discovery II (3)		
3. SPECIALIZATION: AFRICAN STUDIES: 18 hours			
AAAS 3310	Global Perspectives on the African Diaspora (3)		
AAAS 4565	Topics in African Diaspora Studies (3)		
ANTHROP 3418	Regional Survey of the Anthropology of Africa (3)		
COMM 3554	Social Implications of Communication Technology (TECH) (3)		
HISTORY 2303	History of Contemporary Africa, 1960 – Present (3)		
HISTORY 3301	History of Modern West Africa, post 1800 (3)		
HISTORY 3307	History of African Health & Healing (3)		
INTSTDS 3703	Ethical Issues in the Information Age (TECH) (3)		
INTSTDS/HISTART 3905	The Developing World on Screen (4)

RELSTDS/INTSTDS 4873	Contemporary Religious Movements in Global Context (3)
SLAVIC/WGSST 5450	Global Human Trafficking: Realities and Representations (3)
Sociology 5450	Sociology of Global Health and Illness (3)
Sociology 5525	Global Criminology (3)
WGSST 3505	Feminist Perspectives on Globalization (3)

ELECTIVES (choose one): 3 hours.

For the elective, students can choose from the list below, unused courses from the Critical Perspectives, or a course from other International Studies specializations.

AAAS 3310	Global Perspectives on the African Diaspora (3)
AEDECON/INTSTDS 4532	Food Security & Globalization (3)
Anthropology 3597.01	Crisis! An Anthropological Perspective of Global Issues (3)
Comparative Studies 3645 (H)	Cultures of Medicine (3)
Comparative Studies 4597.03	Global Folklore (3)
COMPSTD/INTSTDS 3661	The City and Culture (3)
Economics 4130	World Economic Development in Historical Perspective (3)

ENG/GEOG 3597.03	Environmental Citizenship (3)
ENR 5480	Local Peoples and International Conservation (3)
Earth Sciences 3411	Water Security for the 21 st Century (3)
Geography 3701	The Making of the Modern World (3)
Geography 5501	Urban Spaces and the Global Economy (3)
History 3630	Same Sex Sexuality in Global Context (3)
History 3705	History of Capitalism in Comparative and Global Perspective (3)
Political Science 4940	The Politics of Immigration (3)
Sociology 3460	Environmental Justice (3)
SPANISH/INTSTDS 5640	Globalization & Latin America: Multi-Disciplinary Approaches (3)

Globalization Studies Specialization-(BS) Revised			
PREREQUISITE:			
All students must complete four semesters of training in a single world language. You do not need to complete them before taking classes in the major. You also have the option of completing a minor or a second major in a language. Coursework completed at OSU, abroad and/or appropriate placement test results can document this.			
EMBEDDED LITERACIES (EL): (three courses): 9 hours			
Students must complete at least one course each in Advanced Writing (AW) , and Technology (TECH) , and complete a 3-course sequence in Data Analysis (DA) . These courses are part of the major and courses which fulfill the requirements are indicated below.			
Course	Title	Credits	Grade
1. REQUIRED FOUNDATIONS: 6 hours			
International Studies 3850	Introduction to Globalization	3	
International Studies 4852	Research in Globalization (AW)	3	
2. Data Analysis: 9 hours (choose one three course sequence) (DA)			
1. Geography 4103	Introductory Spatial Data Analysis (3)		
2. Geography 5103	Intermediate Spatial Data Analysis (3)		
3. Geography 5210	Fundamentals of Geographic Information Systems (3)		
1. ECON/INTSTDS 3400 OR Political Science 3780(H)	The Analysis & Display of Data (3)

THE FOUR EXPECTED LEARNING OUTCOMES (ELOs) are:				
A. Students can perform basic data analysis and hypothesis testing.				

- B. Students show an ability to analyze and draw conclusions about international events and developments employing multiple analytical perspectives.
- C. Students show an understanding of the diversity of cultures, ideas, and practices across the world.
- D. Students are prepared for entry into diverse types of employment and/or graduate-level educational programs.

Human Rights Major (BA) CURRENT

PREREQUISITE:

All students must complete four semesters of training in a single world language. You do not need to complete them before taking classes in the major. You also have the option of completing a minor or a second major in a language. Coursework completed at OSU, abroad and/or appropriate placement test results can document this.

EMBEDDED LITERACIES (EL): (three courses): 9 hours

Students must complete at least one course each in **Advanced Writing (AW)**, **Data Analysis (DA)** and **Technology (TECH)**. These courses are part of the major and courses which fulfill the requirements are indicated below.

Course	Title	Credits	Grade
1. REQUIRED FOUNDATIONS: 6 hours			
International Studies 3850	Introduction to Globalization	3	
International Studies 4852	Research in Globalization (AW)	3	

2. Methods & Analysis: 3 hours (choose one) (DA)

Geography 4103	Introductory Spatial Data Analysis (3)		
ECON/INTSTDS 3400 OR	The Analysis & Display of Data (3)		
Political Science 3780(H)	Data Literacy & Data Visualization (3)		
Sociology 5650	Presenting & Communicating Quantitative Data (3)		

3. Student must choose a PRIMARY SPECIALIZATION (15 hours) & a SECONDARY SPECIALIZATION (9 hours).

- If Human Rights is your **PRIMARY SPECIALIZATION**, then choose five courses: 15 hours. Then choose three courses from a SECONDARY SPECIALIZATION.
- If Human Rights is your **SECONDARY SPECIALIZATION**, then choose three courses: 9 hours.

PRIMARY SPECIALIZATION: HUMAN RIGHTS: 15 hours

AAAS or HISTORY 3083	Civil Rights & Black Power Movements (3)

THE FOUR EXPECTED LEARNING OUTCOMES (ELOs) are:

- A. Students can perform basic data analysis and hypothesis testing.
- B. Students show an ability to analyze and draw conclusions about international events and developments employing multiple analytical perspectives.
- C. Students show an understanding of the diversity of cultures, ideas, and practices across the world.
- D. Students are prepared for entry into diverse types of employment and/or graduate-level educational programs.

INTERNATIONAL RELATIONS & DIPLOMACY MAJOR (BS) CURRENT

PREMAJOR requirements: History 2650, Political Science 1300, Stats 2450.xx

EMBEDDED LITERACIES (EL): (three courses): 9 hours

Students must complete at least one course each in **Advanced Writing, Data Analysis and Technology**. These courses are part of the major and courses which fulfill the requirements are indicated below. The Stats 2450.xx prerequisite satisfies the **EL Data Analysis**.

REQUIRED MINOR: Students must complete one of the following minors, or a second major in the same field: Agribusiness, Business, City and Regional Planning, Environmental Science, Geographic Information Science, Global Public Health, Information Security, International Business, Quantitative Economics.

REQUIRED FOUNDATIONS: (complete all four courses): 12 hours.

Geography 3701	Making of the Modern World (3)
International Studies 2800	Introduction to Peace Studies (3)
Political Science 4300	Theories of International Relations (3)
Political Science 4331	The United Nations System (3)

ADVANCED FOREIGN LANGUAGE: (complete one): 3-4 hours

Complete one of the advanced foreign language courses listed on the front of this brochure. Remember, you must complete 1103 of the same language first.

CRITICAL PERSPECTIVES (choose four): 12 hours (must include one EL Technology & one EL Advanced Writing)

Economics 4600	International Economic Relations (3)
Geography 3600	Space, Power & Political Geography (3)
History 3500	U.S. Diplomacy from Independence to 1920 (3)
History 3501	U.S. Diplomacy, 1920-Present (3)
History 3526	20 th Century European International History (3)
International Studies 3450	Human Rights: An Introduction (3)
International Studies 3703	Ethical Issues in the Information Age (EL Technology) (3)
International Studies 4700	Terror & Terrorism (EL Advanced Writing) (3)
International Studies 4701	The Development & Control of Weapons of Mass Destruction (EL Technology) (3)
International Studies 4704	A Global War on Terror? America's Response to the 9/11 Attacks (3)
International Studies 4800	Cultural Diplomacy (3)
International Studies 4801	Model United Nations (3)
International Studies 4803	Intervening for Peace: Peacekeeping & Collective Security (3)
International Studies 4806	Intelligence for Diplomacy: Accessing Leadership Style (3)
International Studies 4852	Research in Globalization (EL Advanced Writing) (3)
Political Science 4320	Strategies for War & Peace (3)
Political Science 4330	Global Governance (3)
Political Science 4381	Comparative International Political Economy (3)

ELECTIVES (choose one): 3 hours.

For the elective, students can choose from the list below, unused courses from the Critical Perspectives, or a course from other International Studies specializations.

Comparative Studies 3608	Representations of the Experience of War (3)
COMPSTD or INTSTDS 3661	The City & Culture (3)
COMPSTD or INTSTDS 4873	Contemporary Religious Movements in Global Context (3)
Geography 5601	Geographies of Governmentalities (3)
History 3525	19 th Century European International History (3)
History 3560	American Military History, 1607-1902 (3)
History 3561	Citizenship & American Military History, 1902 to the Present
History 3590	Wars of Empire & Decolonization (3)
International Studies 4195	Selected Problems in International Studies (3-6)
International Studies 5191	Student Intern Program in International Studies (3 credits only)
Political Science 4310	Security Policy (3)

Political Science 4315
Public Affairs 5700

International Security & the Causes of War (3)
Rebuilding Failed and Weak States (3) (cross-listed in Int Stds)

International Relations & Diplomacy Specialization (BS) REVISED			
PREREQUISITE:			
All students must complete four semesters of training in a single world language. You do not need to complete them before taking classes in the major. You also have the option of completing a minor or a second major in a language. Coursework completed at OSU, abroad and/or appropriate placement test results can document this.			
EMBEDDED LITERACIES (EL): (three courses): 9 hours			
Students must complete at least one course each in Advanced Writing (AW) , and Technology (TECH) , and complete a 3-course sequence in Data Analysis (DA) . These courses are part of the major and courses which fulfill the requirements are indicated below.

THE FOUR EXPECTED LEARNING OUTCOMES (ELOs) are: <ul style="list-style-type: none">A. Students can perform basic data analysis and hypothesis testing.B. Students show an ability to analyze and draw conclusions about international events and developments employing multiple analytical perspectives.C. Students show an understanding of the diversity of cultures, ideas, and practices across the world. Students are prepared for entry into diverse types of employment and/or graduate-level educational programs				

SECURITY & INTELLIGENCE SPECIALIZATION (BS) CURRENT

PREMAJOR requirements: History 2550, Psychology 1100, Stats 2450.xx

EMBEDDED LITERACIES (EL): (three courses): 9 hours

Students must complete at least one course each in **Advanced Writing, Data Analysis and Technology**. These courses are part of the major and courses which fulfill the requirements are indicated below. The Stats 2450.xx prerequisite satisfies the **EL Data Analysis**.

REQUIRED MINOR: Students must complete one of the following minors, or a second major in the same field: Agribusiness, Business, City and Regional Planning, Environmental Science, Geographic Information Science, Global Public Health, Information Security, International Business, Quantitative Economics.

REQUIRED FOUNDATIONS: (complete all four courses): 12 hours.

International Studies 3700	Introduction to Intelligence (3)
International Studies 4700	Terror & Terrorism (EL Advanced Writing) (3)
Political Science 4315	International Security & the Causes of War (3)
Psychology 4525	Psychology of Personal Security (3)

ADVANCED FOREIGN LANGUAGE: (complete one): 3-4 hours

Complete one of the advanced foreign language courses listed on the front of this brochure. Remember, you must complete 1103 of the same language first.

CRITICAL PERSPECTIVES (choose four): 12 hours (must include one EL Technology)

Earth Sciences 3411	Water Security in the 21 st Century (3)
Economics 4547	Economics of War (3)
History 3540	Modern Intelligence History (3)
History 3552	War in World History, 1900-present (3)
International Studies 3701	Introduction to Homeland Security (3)
International Studies 3702	Herding Cyber Cats: Information Security Management (3)
International Studies 3703	Ethical Issues in the Information Age (EL Technology) (3)
International Studies 4550	Bioterrorism: An Overview (3)
International Studies 4701	The Development & Control of Weapons of Mass Destruction (EL Technology) (3)
International Studies 4704	A Global War on Terror? America's Response to the 9/11 Attacks (3)
International Studies 4806	Intelligence for Diplomacy: Accessing Leadership Style (3)
International Studies 4852	Research in Globalization (EL Advanced Writing) (3)
INTSTDS or PUBAFRS 5700	Rebuilding Failed and Weak States (3)
International Studies 5701	Intelligence & National Security in a Changing World (3)
International Studies 5703	Thinking and Writing: A Practicum for Intelligence Analysis (3)
Linguistics 3801	Codes and Code Breaking (3)
Political Science 4210	Security Policy (3)
Political Science 4318	Politics of International Terrorism (3)
Sociology 3315	Sociology of Terrorism (3)
Sociology 5525	Global Criminology (3)

ELECTIVES (choose one): 3 hours.

For the elective, students can choose from the list below, unused courses from the Critical Perspectives, or a course from other International Studies specializations.

Anthropology 3211	Introduction to Forensic Science (3)
Anthropology 3305	Introduction to Forensic Anthropology (3)
Communication 3597.02	Media and Terrorism (3)
Computer Science & Eng. 4471	Information Security (3)
Economics 3790	Economics of Crime (3)
ENR 4648	Environment and Natural Resources Law Enforcement (3)
Geography 5300	Geography of Transportation (3)
History 3270	History of World War I (3)

History 3570
History 3580
International Studies 4195
International Studies 4803
International Studies 5191

THE FOUR EXPECTED LEARNING OUTCOMES (ELOs) are:

- A. Students can perform basic data analysis and hypothesis testing.
- B. Students show an ability to analyze and draw conclusions about international events and developments employing multiple analytical perspectives.
- C. Students show an understanding of the diversity of cultures, ideas, and practices across the world.
- D. Students are prepared for entry into diverse types of employment and/or graduate-level educational programs.

WORLD ECONOMY & BUSINESS SPECIALIZATION (BS) CURRENT

PREMAJOR requirements: Economics 2001.xx, Economics 2002.xx, Stats 2450.xx

EMBEDDED LITERACIES (EL): (three courses): 9 hours

Students must complete at least one course each in **Advanced Writing, Data Analysis and Technology**. These courses are part of the major and courses which fulfill the requirements are indicated below. The Stats 2450.xx.01 prerequisite satisfies the **EL Data Analysis**.

REQUIRED MINOR: Students must complete one of the following minors, or a second major in the same field: Agribusiness, Business, City and Regional Planning, Environmental Science, Geographic Information Science, Global Public Health, Information Security, International Business, Quantitative Economics.

REQUIRED FOUNDATIONS: (complete all four courses): 12 hours.

AEDECON or INTSTDS 4540	International Commerce & the World Economy (3)
ECON/INTSTDS 3400	The Analysis & Display of Data (3) (cross-listed with Econ 3400)
Economics 4700	Government & Business (3)
ECON or INTSTDS 4560	Cooperation & Conflict in the Global Economy (3)

ADVANCED FOREIGN LANGUAGE: (complete one): 3-4 hours

Complete one of the advanced foreign language courses listed on the front of this brochure. Remember, you must complete 1103 of the same language first.

CRITICAL PERSPECTIVES (choose four): 12 hours (must include one EL Technology & one EL Advanced Writing)

AEDECON or INTSTDS 4320 (E)	Energy, the Environment & the Economy (3)
Economics 4508	Comparative Economic Systems (3)
Economics 4600	International Economic Relations (3)
Geography 5401	Economies, Space and Society (3)
History 3705	History of Capitalism in Comparative & Global Perspectives (3)
International Studies 3703	Ethical Issues in the Information Age (EL Technology) (3)
International Studies 4700	Terror & Terrorism (EL Advanced Writing) (3)
International Studies 4701	The Development & Control of Weapons of Mass Destruction (EL Technology) (3)
International Studies 4850	Understanding the Global Information Society (3)
International Studies 4852	Research in Globalization (EL Advanced Writing) (3)
Political Science 4280	State and Economy (3)
Political Science 4380	Political Analysis of International Economic Relations (3)
Political Science 4381	Comparative International Political Economy (3)
Political Science 4910	Business-Government Relations (3)
Sociology 3464	Work, Employment and Society (3)

ELECTIVES (choose one): 3 hours.

For the elective, students can choose from the list below, unused courses from the Critical Perspectives, or a course from other International Studies specializations.

AEDECON OR INTSTDS 4534	Comparative Challenges to Economic Development (3)
AEDECON/INTSTDS/PUBAFRS 4535	International Economic Development (3)
AEDECON/ECON/INTSTDS 4537	Middle Eastern Economic Development (3)
Economics 4130	World Economic Development in Historical Perspective (3)
Economics 4200	Money & Banking (3)
Economics 4300	Government Finance in the American Economy (3)
Economics 4310	Local Public Finance (3)
Economics 4320	Public Expenditure and Cost Benefit Analysis (3)
Economics 4547	Economics of War (3)
Economics 4553	Economics of Population (3)

Economics 4800
Geography 5300
International Studies 4195
International Studies 5191
INTSTDS or PUBAFRS 5700

Labor Economics and Industrial Relations (3)
Geography of Transportation (3)
Selected Problems in International Studies (3)
Student Intern Program in International Studies (3 credits only)
Rebuilding Failed and Weak States

World Economy & Business Specialization (BS) REVISED			
PREREQUISITE:			
All students must complete four semesters of training in a single world language. You do not need to complete them before taking classes in the major. You also have the option of completing a minor or a second major in a language. Coursework completed at OSU, abroad and/or appropriate placement test results can document this.			
EMBEDDED LITERACIES (EL): (three courses): 9 hours			
Students must complete at least one course each in Advanced Writing (AW) , and Technology (TECH) , and complete a 3-course sequence in Data Analysis (DA) . These courses are part of the major and courses which fulfill the requirements are indicated below.			
Course	Title	Credits	Grade
1. REQUIRED FOUNDATIONS: 6 hours			
International Studies 3850	Introduction to Globalization	3	
International Studies 4852	Research in Globalization (AW)	3	
2. Data Analysis: 9 hours (choose one three course sequence) (DA)			
1. Geography 4103	Introductory Spatial Data Analysis (3)		
2. Geography 5103	Intermediate Spatial Data Analysis (3)		
3. Geography 5210	Fundamentals of Geographic Information Systems (3)		
1. ECON/INTSTDS 3400 OR Political Science 3780(H)	The Analysis & Display of Data (3)
