

Chair, Arts and Sciences Curriculum Committee

August 26, 2024

Dear Chair and Members of the Arts and Sciences Curriculum Committee:

On May 10, 2024, the Social and Behavioral Sciences Subcommittee reviewed a request to approve a revision to the GIS in Demography.

The revision involves an update to the elective courses available to students. The list of electives was last approved in 2020. Since that time, new courses that are relevant to the GIS have been developed. In addition, some courses from the list are no longer offered or have changed titles or course numbers. As this program is interdisciplinary, the department has contacted all of the relevant departments to confirm that the new list of electives in the GIS is current.

The SBS Subcommittee voted unanimously to approve this request, with one contingency that has since been addressed. The proposal is now advanced to the ASCC with a motion to approve.

Sincerely,

Amy Nathanson

Professor of Communication

Chair, ASCC Social and Behavioral Sciences Subcommittee
