Good afternoon,

On Friday, January 17th, the Themes II Subcommittee of the ASC Curriculum Committee reviewed a new GEN Theme: Migration, Mobility, and Immobility request for WGSS 4404.

I am pleased to report that the Subcommittee unanimously approved the request with one contingency:

- **Contingency:** The reviewing faculty note that this course will be an excellent inclusion into the GEN Theme: Migration, Mobility, and Immobility category. In particular, they were impressed at the level of detail included within the GEN Theme submission form. To this end, they would like to see some of the details provided within the submission form incorporated within the course syllabus to help students better understand how the course will allow them to make connections to the Theme category. They believe that this information being explicit within the course syllabus will better assist students in making these connections as they advance through the course.

I will return the course to the departmental queue via curriculum.osu.edu in order to allow you to address the contingency above.

Should you have any questions, please do not hesitate to reach out to Lisa Cravens-Brown, faculty Chair of the Themes II Subcommittee, or me.

All my best,
Michael

I acknowledge that the land that The Ohio State University occupies is the ancestral and contemporary territory of the Shawnee, Potawatomi, Delaware, Miami, Peoria, Seneca, Wyandotte, Ojibwe and Cherokee peoples. Specifically, the university resides on land ceded in the 1795 Treaty of Greenville and the forced removal of tribes through the Indian Removal Act of 1830. I honor the resiliency of these tribal nations and recognize the historical contexts that has and continues to affect the Indigenous peoples of this land.
