Good afternoon,

On Wednesday, May 7th, the Natural and Mathematical Sciences Subcommittee of the ASC Curriculum Committee reviewed a new course request for Molecular Genetics 2500.01.

I am pleased to report that the Subcommittee unanimously approved the request with one question and one recommendation:

- **Question:** The Subcommittee noted that this course was submitted under 2500.01 instead of simply 2500. They would like to ask the department if they intend to submit a 2500.02 version of the course in the near future and, if so, what the differences between these two courses will be.
- **Recommendation:** The Subcommittee recommends updating the Religious Accommodations statement (syllabus page 7), as the Office of Institutional Equity has been changed. The updated statement can be found on the [ASC Curriculum and Assessment Services website](#).

Molecular Genetics 2500.01 will continue through the approval process to OAA.

Should you have any questions, please do not hesitate to reach out to either me or Christopher Hadad, faculty Chair of the Natural and Mathematical Sciences Subcommittee, with any questions.

All my best,
Michael

I acknowledge that the land that The Ohio State University occupies is the ancestral and contemporary territory of the Shawnee, Potawatomi, Delaware, Miami, Peoria, Seneca, Wyandotte, Ojibwe and Cherokee peoples. Specifically, the university resides on land ceded in the 1795 Treaty of Greeneville and the forced removal of tribes through the Indian Removal Act of 1830. I honor the resiliency of these tribal nations and recognize the historical contexts that has and continues to affect the Indigenous peoples of this land.
