Good morning,

On Wednesday, February 4th, the Themes Subcommittee 1 of the ASC Curriculum Committee reviewed a course proposal for Entomology 3600 to be included in the GEN Theme: Lived Environments category.

The Subcommittee approved the proposal with the following feedback:

- Comment: The Subcommittee offers a friendly observation regarding best practices for supporting academic integrity. The use of take-home, multiple-choice exams may present challenges related to academic integrity, particularly in GE courses where students may be taking the course for a variety of reasons as opposed to major courses.

Entomology 3600 will continue through the approval process to OAA.

Should you have any questions, please feel free to reach out to me.

Best,
Jennifer
