Good afternoon,

On Thursday, October 9th, the Natural and Mathematical Sciences Subcommittee of the ASC Curriculum Committee reviewed a proposal to revise the BA/BS in Computer Information Science.

The Subcommittee approved the proposal with the following feedback:

- **Comment:** The Subcommittee requests that the College submit a report within the next year or two providing an update on the implementation and impact of the probation and dismissal policy changes.
- **Recommendation:** The Subcommittee notes that the proposal states that warnings are issued for failure of one or more major or required non-major courses. The Subcommittee recommends considering whether this policy should also apply to grades of D or D+ for Arts and Sciences students, since these grades cannot be used for credit toward a major in ASC.

The proposal is now ready to be reviewed by the full Arts and Sciences Curriculum Committee. My office will be in touch soon with more information.

In the meantime, please feel free to reach out to me should you have any questions.

Best,
Jennifer
