To whom it may concern,

The Department of Sociology wishes to suspend our Sociology BS major. This decision has not been made lightly, as many years of work went into creating the BS, which has existed for over a decade. Nonetheless, the BS major has not taken off as hoped. Currently, there are 15 students pursuing a BS in Sociology (as addressed in more detail shortly). The major has typically had that number of students, despite several efforts to increase interest. Beyond this, the SBS Computational Social Science major leading to a Bachelor of Science degree that will be created shortly in the College of Arts and Sciences will provide students with a more rigorous option than we can, and many students who would select a Sociology BS may select that major instead. At this point, we are asking that the Sociology BS be suspended and not deactivated/terminated because we would like to keep our options open if for any reason we would need to reverse course.

As noted, there are currently 15 students enrolled in the major. Ten of these students are seniors and will complete the major in spring of 2026. This leaves five students who will complete the major: four juniors and one sophomore who intends to graduate in May of 2028. Our department is committed to ensuring that the courses they need to finish the degree will be offered. Indeed, several of these courses are regularly offered graduate-level courses. The Sociology BA degree will also certainly continue to be offered such that these individuals (and other students) will be able to take these courses. Thank you for considering this request.

Sincerely,

Hollie Nyseth Nzitatira
Director of Undergraduate Studies
Professor, Sociology
The Ohio State University

Major Requirement Notations

Embedded Literacies

There is an expectation that students will have experiences throughout their education in the major that develop their competencies in three key areas – data analysis, advanced writing, and technology.

- Data Analysis – fulfilled with SOCIOL 3549 Statistics in Sociology
- Advanced Writing - fulfilled with SOCIOL 3487 Research Methods in Sociology
- Technology - fulfilled with SOCIOL 3302 Technology and Global Society (can be used as an elective course)

Students must earn at least a C- in a course for the course to apply to the major

Students must also receive a 2.0 cumulative grade point average (GPA) for all major course work. If a D+, D, or an E is earned in a course needed for the major, the course cannot be counted on the major. Advisors can assist students in determining whether the course should be repeated or if another course should be substituted. Courses taken on a pass/non-pass basis cannot be used on the major.

The department must approve all courses in the major

Course choices should be made in consultation with a Sociology academic advisor. Academic advisors will assist students with planning the experiential major requirement. Courses that are listed for the major program cannot also be used to meet General Education Foundation requirements. If you are interested in completing a double major in Sociology and Criminology or a major and minor combination in the two disciplines, please consult with a Sociology Advisor

(<https://sociology.osu.edu/undergraduate-program/advising>)

Transfer students

If a student transferred from another institution, no more than half of the credit hours on the major program may consist of transfer credit. The academic advisor, the chairperson of the department, and the appropriate assistant dean must approve any request for a variation in this policy.

For Honors students, the GE curriculum and major must be approved by the assigned Honors advisor. Information about the honors curriculum, requirements, and scheduling appointments with an honors advisor is available on the College of Arts and Sciences Honors Program website <https://aschonors.osu.edu/advising>. Students will also be assigned a faculty advisor in the Sociology department to help select courses and co-curricular opportunities that align with academic and professional goals.
