Rationale for change in pre-requisite for SHS 760:

SHS 765 is a basic course in neuroanatomy and physiology. SHS 760 is a clinical course having to do with stroke patients. Experience has shown that students who take SHS 765 and attain a grade lower than a B- have a higher rate of also attaining a grade lower than B- in SHS 760 than students who attain a B- or better in SHS 765. For this reason, the faculty in SHS would like to restrict enrollment in SHS 760 to only students who attain a grade of B- or better in SHS 765. Attaining grades of lower than B- in both these courses not only puts the individual student at risk of being dismissed from the graduate program, but also raises serious questions about the quality of clinic service that such students could provide to patients diagnosed with neurological disorders such as stroke, head injury, and Alzheimer's disease.
